

Hosting

OneStopCMS is hosted on HP ProLiant servers at a secure data centre, manned 24 hours a day.

Cubik's OneStopCMS servers are located in a highly-secure data centre equipped to the highest possible standards. Internet connectivity and bandwidth is delivered using resilient connections to multiple Tier 1 Internet Service Providers.

OneStopCMS is powered by HP ProLiant servers configured for high-availability, using RAID technology. Web servers are network load balanced and database servers have shared disc arrays with automated failover capabilities. Servers are protected from external threats by contemporary firewall technology and on-site operations staff provide monitoring on a 24 x 7 x 365 basis.

A sophisticated automated backup and restore service ensures that critical data is protected.
