

Microsoft accreditation

Cubik is a Microsoft Gold Certified Partner with a knowledge of Windows SharePoint Services.

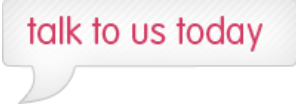

Cubik is a Microsoft Gold Certified Partner with a specialism in custom development solutions. We develop using the ASP.NET 3.5 framework.

Custom Development Solutions

We have experience of Microsoft's technology for document management and collaborative working (Microsoft Office SharePoint Server 2007 or MOSS 2007, soon to be superceded by MOSS 2010). MOSS is a licensed technology that builds upon Windows SharePoint Services (WSS), a freely downloadable Microsoft add-on to Windows Server 2003.

The design of the Cubik CMS means that the repository for the storage of the assets that enrich your website content (images, downloadable content, multi-media files etc) can be stored in any document management system that offers an open interface. One option is to utilise WSS, meaning that the Cubik CMS can offer tight integration with MOSS.
